- UI/UX Designing
- Web Designing
- Graphic Designing
- Low, Mid, High Wireframing
- Prototyping

SKILLS

- Figma
- Adobe XD
- Adobe Photoshop
- Canva
- MS PowerPoint

EXPERIENCES

UI/UX Designer & Elementor Designer — June 2024 - Present
Sermon Shots | Tennessee, United States

- Design and improve web and product interfaces across Sermon Shots features, focusing on usability and clarity for church users.
- Create wireframes, high-fidelity UI designs, and interactive prototypes in Figma to support new features and product updates.
- Build and maintain marketing and product pages using WordPress and Elementor, translating design concepts into responsive layouts.
- Collaborate directly with the CEO and developers to refine UI behavior, user flows, and feature implementations.
- Conduct UI reviews and provide design feedback to maintain consistency across the platform.
- Optimize layouts and components for desktop, tablet, and mobile responsiveness.

Lead UI/UX Designer — Jan 2024 - May 2024
VisionSidekick | Florida, United States

- Managed the end-to-end UI/UX design for VisionSidekick, an AI-driven vision board generator powered by DALL·E 3, overseeing the project from concept to launch.
- Researched emerging design trends and analyzed competitor strategies to create innovative, engaging, and user-friendly experiences.
- Created low-fidelity wireframes and refined them into high-fidelity designs, ensuring a smooth and intuitive user experience.

Lead UI/UX Designer — Jan 2024 - May 2024
PitchPrfct CRM | Florida, United States

- Led UI/UX design processes for PitchPrfct CRM, working on the development from initial sketching of low-fidelity wireframes to creating polished, user-friendly designs.
- Conducted extensive market research and competitor analysis to inform design decisions, leading to the integration of innovative features such as customizable color preferences and streamlined workflows, enhancing user experience and retention rates.

- Prototyping

SKILLS

- Figma
- Adobe XD
- Adobe Photoshop
- Canva
- MS PowerPoint

- Collaborated with cross-functional teams, including clients and developers, ensuring seamless communication and alignment with project goals, which resulted in on-time delivery and exceeded client expectations.

UI/UX Designer — Jul 2023 - Dec 2023
Shinefy | California, United States

- Played a key role in designing visually compelling UI for Shinefy's AI video generation platform, focusing on the dashboard and in-app features to enhance usability and engagement.
- Redesigned and optimized in-app features, improving both aesthetics and functionality by 80%, leading to a more efficient and user-friendly experience for both internal teams and end-users.
- Developed wireframes, sitemaps, user journeys, user flows, prototypes, process flows, and UI components, ensuring a structured and intuitive design process.
- Worked closely with the senior UX designer, developers, and project managers to seamlessly integrate design concepts and maintain consistency across the platform.

UI/UX Designer & Researcher — Aug 2022 - May 2023
Holy Angel University

- **Capstone Project:** Contributed to the research and development of Veritru, a web3 fact-checking application leveraging Blockchain technology to battle counterfeit news and false information by creating web-based platform where users can submit content or articles to review the credibility and authenticity of information.

Technical Designer Intern — Jul 2022 - Oct 2022
Hooli Software

- Designed the UI, and created design components of ordering systems for Grub Market Grow's web application on AdobeXD.
- Created and designed social media graphics on Canva for Breached Me's social media accounts on LinkedIn, Facebook, and Twitter, which helped increase brand awareness and engagement with customers.
- Developed coupon voucher designs for Kuponji using Canva.
